Who we are

STEP was formed in 2015 to improve St. Anne's as a whole, for the community, residents, businesses and tourists.

We 'bridge the gap' between the council-led projects and the desire of the locals to improve the town even further.

STEP is a St. Anne's business-led group, driving improvement based on the views of the team members and the wider community.

In short, we want to make St. Anne's thrive again.
